The SkillsUSA Championships provides an opportunity for members to prove their industry-readiness by testing their skills and abilities to standards set and assessed by industry partners. These competitive events begin at the local level and allow students to advance to regional, state, and national levels for recognition. Through the SkillsUSA Championships, members are able to connect with professionals within the field and develop relationships for future employment and success.

As an integral part of curriculum, the industry-validated SkillsUSA Championships provide students with workplace experiences in 9 career clusters. Industry partners establish entry level competencies to measure proficiency in technical and employability skill development resulting in the technical standards for each competition. Partners evaluate the authentic assessments that create the competitions. Through the Championships, members are able to connect with professionals in their field to develop relationships for future employment success.

2021 STATE CHAMPIONSHIPS PLAN

As an organization, SkillsUSA Indiana focuses on fulfilling the organization’s mission while ensuring long-term success. In the 57-year history of SkillsUSA Indiana, last year brought the first cancellation of the State Leadership and Skills Conference. To ensure future success of SkillsUSA Indiana and continue to provide members the incredible opportunity to showcase their skills in front of business and industry partners across the country, SkillsUSA Indiana is committed to hosting our flagship program, the SkillsUSA Indiana Championships this year.

SkillsUSA Indiana’s number one priority for all of our decisions has and will always be the safety and well-being of our students, teachers and volunteers.

SkillsUSA Indiana staff has collaborated with advisors, career and technical education directors and other organizations, consulted with legal counsel as well as reviewed safety and health guidelines set by the Indiana Department of Public Health and Indiana Board of Education. Through this process, SkillsUSA Indiana has committed to hosting the State Championships following two guiding principles:

**FOLLOW SAFETY AND HEALTH GUIDELINES**

With restrictions created in response to the COVID-19 pandemic, SkillsUSA Indiana does not believe it will be possible to meet in person for events this year. SkillsUSA Indiana is turning to local chapters to assist with offering this year’s State Championships. This year’s State Championships will be held virtually with the State Championships being locally run and remotely judged.
CONTEST DELIVERY FORMAT

SkillsUSA Indiana will offer approximately 90 career competition contests in nine career clusters this year. Additionally, through business and industry need and support, four contests will be demonstrated this year. Delivery will look different than in years past. Contests will be offered in two formats: Virtual Live and Contest Submission.

VIRTUAL LIVE

Contestants will interact in real-time with judges or a simulation, facilitated using a video conferencing platform or a virtual environment.

Example: Job Interview
Contestants will sign up for a time and be interviewed on Zoom. The interview will be recorded and judged.

CONTEST SUBMISSION

Contestants will compete while being recorded, supervised by a proctor. Completed contests will be submitted for remote judging.

Example: Carpentry
Contestants will complete the project, while being filmed, and submit the completed project for judging.

The goal of SkillsUSA Indiana is to provide local chapters with as much information as possible to be successful in recruiting and engaging members into this experience. The timeline of events (right) outlines information availability, deadlines and events.

On January 22, 2021, SkillsUSA Indiana will release contest guides for each contest that will outline how to prepare for the contest, equipment and technologies needed and any modifications to the technical standards. By April 1, 2021, chapters will be provided a material list and ordering information for the contests. SkillsUSA Indiana will supply all consumable materials, like a typical conference, and delivery will be coordinated with the state office.

STATE QUALIFYING EVENTS

In years past, we have held regional contests. However, due to circumstances, this year some contests may require a State Qualifying Event. These events will be held as online exams. Notification will be sent if Qualifying Event is needed. No regional contests will be held this year.

STATE CHAMPIONSHIPS

The 57th SkillsUSA Indiana State Championships will be held April 12 - May 8, 2021. The conference will kick off on April 12 by a Championships Kick-off where contestants will be able to access their contest projects and information. Contestants will have until April 26 to complete and submit their contests.

Outside of the Championships, SkillsUSA Indiana would like to know what your classes have been doing. Send us your videos/pictures/screenshots, etc. of any projects or chapter activities for us to showcase in our virtual conference.

On May 8, 2021 we will celebrate the work of our members and chapters with a virtual Awards Ceremony. Here, the gold, silver and bronze medalists of each contest will be recognized and announced. The top competitor in each contest will represent Indiana at the National Leadership and Skills Conference.
SkillsUSA Indiana Championships Contest List

2021

This is the official list of SkillsUSA Indiana competitive events for the 2020-2021 year.

Contests follow the SkillsUSA National Technical Standards (Virtual).

QE Qualifying Event
May require a qualifying event to advance.

Demonstration
Trial contest, standards on skillsusa.org.
